

ZERO NON-SLIP THRESHOLDS

Thresholds can be ordered with non-slip epoxy abrasive particles bonded into the grooves. The tread provides a coefficient of friction of 1.02 dry and 0.98 wet. To order, add -E after the product code. Example 546A-E.

Available to special order only.

ZERO FULL BODY STRENGTH THRESHOLDS

An aluminium composite filler containing aluminium oxide and silicone carbide can be used to fill the void beneath the threshold. This gives added strength to the threshold. Ideal applications include heavy commercial traffic in warehouses, manufacturing buildings, schools, cafeterias, car dealers, hospitals and industrial buildings. To order, add -V3 after the product code. Example 63A-V3.

Available to special order only.

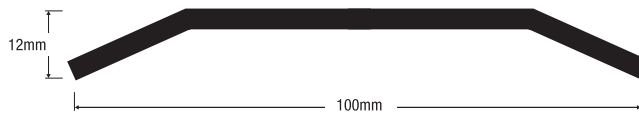

ZERO STAINLESS STEEL THRESHOLDS

Aluminium thresholds are generally suitable for use on external doors. However in particularly harsh environments it may be decided to use stainless steel thresholds. These are manufactured from 3mm thick Grade 304 stainless steel, and available in three patterns. Lengths: 1000mm and 2100mm drilled for CSK screws.

CAUTION: These are not grooved and may become slippery in wet conditions.

Z654ST

100mm wide x 12mm high stainless steel threshold
Grained finish, drilled and csk
Z654ST.1 1000mm long
Z654ST.2 2100mm long

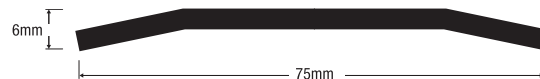

Z544ST

100mm wide x 6mm high stainless steel threshold
Grained finish, drilled and csk
Z544ST.1 1000mm long
Z544ST.2 2100mm long

Z63ST

75mm wide x 6mm high stainless steel threshold
Grained finish, drilled and csk
Z63ST.1 1000mm long
Z63ST.2 2100mm long

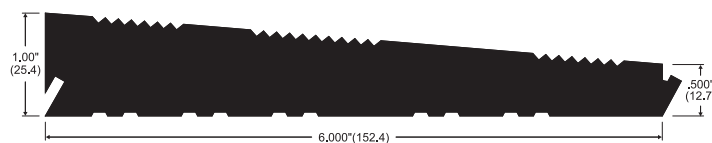

ZERO INTERLOCKING RUBBER RAMPS

Zero flexible rubber ramp thresholds are ideal for uneven floor surfaces and provide non-slip surfaces for building entrances. They can be easily cut on site with a knife or saw.

When used together, 258R and 259R interlock to provide a 25.4mm rise over a width of 305mm. Stock sizes 914mm, 1219mm, 1829mm, 2134mm, and 3048mm.

258R*

152mm wide rubber ramp
12.7mm rise from 12.7 – 25.4mm
Black

259R

152mm wide rubber ramp
12.7mm rise from 0 – 12.7mm
Black
